Starting Formulation

SF 4020 One-Package Cure Adhesive 828 One-Package Rapid Cure Adhesive

EPON™ Resin 828

Introduction
This accelerated one-package Epoxy/DICY adhesive, properly formulated, can yield over three months pot life when stored at normal room temperature, yet develops good bond strengths on relatively short cure schedules of 30 minutes at 149 °C or 40 minutes at 135 °C.

Suggested Uses
- Automotive trim adhesives
- Aircraft adhesives
- General purpose industrial use

Application
All surfaces to be bonded should be free of dirt, oil, grease, or other contaminants to insure maximum adhesion. Apply adhesive to both surfaces to be bonded and cure at 135 °C or above. Contact pressure is adequate for development of maximum bond strength.

Storage
Recommendations regarding storage conditions can be obtained by visiting our web site at [www.hexion.com](http://www.hexion.com)

General Information
These are starting formulations and are not proven in the user’s particular application but are simply meant to demonstrate the efficacy of the products and to assist in the development of the user’s own formulation. It is the user’s responsibility to fully-test and qualify the formulation.
along with the ingredients, methods, applications or equipment identified herein ("Information"), by the user’s knowledgeable formulator or
scientist, and to determine the appropriate use conditions and legal restrictions, prior to use of any Information.

Safety, Storage & Handling

Please refer to the MSDS for the most current Safety and Handling information.

Exposure to these materials should be minimized and avoided, if feasible, through the observance of proper precautions, use of appropriate
engineering controls and proper personal protective clothing and equipment, and adherence to proper handling procedures. None of these
materials should be used, stored, or transported until the handling precautions and recommendations as stated in the Material Safety Data Sheet
(MSDS) for these and all other products being used are understood by all persons who will work with them. Questions and requests for
information on Hexion Inc. ("Hexion") products should be directed to your Hexion sales representative, or the nearest Hexion sales office.
Information and MSDSs on non-Hexion products should be obtained from the respective manufacturer.
